

# PORTABLE HANDLIGHTS: DRY BATTERY

PRODUCT  
CODE

C

Lightweight rugged lanterns for use directly off NEDA 918 Battery. These lights are used by railroads, fire, police, and emergency services. The clevis mounted head allows the unit to be aimed directly at what is to be observed. Operates 15 hours with a 25,000 CP halogen lamp. Also has an option of a red flashing light on the back of the handle for transit work.

- (A) **MODEL: A25-H7550** - with 25,000 CP Halogen Sealed Beam Lamp.  
**MODEL: A25-H7552** - Same as above with halogen flood bulb.  
**MODEL: A25-H7550-REDFL** - Spotlight with red flashing light on back of handle for transit applications. Use NEDA 918 Battery.

- (B) **MODEL: WLBU-S** - Spot Bulb  
**MODEL: WLBU-F** - Flood Bulb

**BUCKET LIGHTS** - This unique light is a portable handlight with a bracket attached for attaching directly to the bucket on aerial bucket trucks. Has double Clevis Swivel for complete aiming requirements. Operates on 2 NEDA 908 spring batteries.

- (C) **EXPLOSION PROOF HANDLIGHT** - As shown, they are made with 3 options listed below. Units are made of glass filled ABS Red with piano hinged case. Will operate on 1 or 2 NEDA 908 spring batteries. Can be supplied with or without truck mounted brackets.  
**MODEL: EXAFL-1** - Light without pull pin for wall bracket. No mount bracket supplied.  
**MODEL: EXAFL-1-BR** - Light supplied complete with wall or truck mounted quick release bracket and pull pin.  
**MODEL: EXAFL-1-QR** - Light supplied with pull pin but no bracket is supplied.
