

ARROW BOARDS/STICKS

A full line of portable as well as permanent truck mounted arrow boards. Constructed of aluminum with black finish and with solid state timing circuits.

(A) **MODEL: LWAB-10** - Compact lightweight (8 lbs.). Comes with control box and 40 foot connecting cable.

MODEL: LWAB-10-MAG-LOCAL - Same as above but it is equipped with magnetic mount for quick installation as shown. Also has a cigarette plug for automotive use. Has local control switches on back of board.

(B) **MODEL: FP-LWAB-KIT-1**

Complete Set: Consists of Arrow Board, Battery, Charger, Base and Stand. For directing traffic at accident or fire scenes. Arrow Board also plugs into the cigarette plug in the automobile, plus it has a magnetic mount. Will operate 8 hours on the small battery pack as shown. Ideal for fire & police at accident scenes.

(C) **MODEL: ARROW STICK** - 42" directional arrow with adjustable mounting clamps. Drives eight 24W bulbs. Features left, right, split, and hazard modes with slow/fast and low/high power controls. Also drives two 50 watt alternating auxiliary lamps via external input or switch.

(D) **MODEL: AB-2X4-RC-SH** - This is a 2 x 4 foot panel and comes with mount for attaching to trucks. All lights have sun hoods for more effective daytime operation. Has a separate control box for cab mounting with cable. Uses 18 watt amber sealed beam lamps which exceed federal regulations.

(E) **MODEL: AB-3X5-RC-SH** - This unit is the same construction as above unit but it has a 3 x 5 foot panel.

Adding Suffix **H5W** in any above arrow boards allows unit to operate 6 hours continuously without vehicle engine on. Total drain is only 26 watts.

All Boards Display:
Right, Left, Double Arrow and Caution Bar.

All 2 x 4 or 3 x 5 Boards
have Dimmer Switch for Night Time
Operation When Required.
