

LIGHTS TO WORK LIGHTS TO WARN LIGHTS TO SAVE LIVES

POLICE FIRE AVIATION UTILITIES
RAILROAD MARINE SANITATION

What makes the *Julian A. McDermott Corporation* so *UNIQUE* in the safety lighting industry cannot be photographed or described in any catalog. It is more than product -- it is **KNOWLEDGE!**

55 Years ago we started to research and design lighting and other related safety devices. We supplied the Armed Services, the Bell System, States, Major Utilities, and countless others. Lighting developed by McDermott was used for protection, traffic guidance, warning, vehicle marking, marine navigation, and landing aircrafts.

Keeping pace with advances in ELECTRONICS AND OPTICAL DEVELOPEMENT, we work on depth perception in relation to flash characteristics, visibility, flash rates in relation to traffic speeds, and the ability of various lighting effects to penetrate into the consciousness.

Diverse projects give McDermott TOOLING FLEXIBILITY as well as applications engineering knowledge from landing aircraft to marking freight trains. Our products are used by the Military as well as the Large Utilities.

Our stock items include handlights (dry cell and rechargeable), flood lights, work area protection, barricades, heavy duty flashers, marine lights, buoy lights, arrow boards, distress markers, airport lighting, helicopter landing lights and almost every kind of vehicular safety lighting, emergency exit strobes, work area protection, fork lift markings and penetrating fire warnings for the deaf.

Whenever ATTRACTING ATTENTION is the goal we have been helpful, from amusement parks to ambulances. Our powerful portable handlights illuminate critical areas in emergency situations throughout the country and on the sea.

Within these pages we show you elements of lights and related equipment. We can or already have, put these components into packages to meet your needs. If your specific application is not depicted call us Collect or Toll Free and our Engineers will work with you to get the best and most economical answers.

WE SOLVE PROBLEMS!!

TABLE OF CONTENTS

All of our products are divided into Codes A through Z, each represented with a category.

<u>PRODUCT CODE</u>	<u>PRODUCT</u>	<u>PAGE</u>	<u>PRODUCT CODE</u>	<u>PRODUCT</u>	<u>PAGE</u>
A	Vehicle Lights	2-6	LR	Lighting Racks	20
B	Vehicle Flashers	7-9	M	Buoy Lights	21
C	Portable Handlights	10-13	Q	Battery Chargers	22
G	Barricades	14-15	R	Marker Lights	23
G	Construction Warning Lights	16	S	Strobe Lights	24
G	Arrow Boards	17	W	Warning Lights	25
H	Airport Construction Lights	18	W	Stack Lights	26
I	Emergency Standby Lights	19			

EXPLANATION OF SUFFIXES

AM	AMBER HOUSING	FM	FLAT MOUNT	PM	PIPE MOUNT
BLK	BLACK HOUSING	FT	FEET	S	STUD
C	CHROME HOUSING	G	GREY OR YELLOW HOUSING	ST	STRAP
CL	CLEVIS MOUNT	MAG	MAGNET	STDFL	STEADY & FLASHING
CP	CIGARETTE PLUG
